Annual Notice of Authorized Student Data Disclosures

In accordance with the Student Data Privacy Act and board policy IDAE, student data submitted to or maintained in a statewide longitudinal data system may only be disclosed as follows. Such data may be disclosed to:

- The authorized personnel of an educational agency or the state board of regents who require disclosures to perform assigned duties; and
- The student and the parent or legal guardian of the student, provided the data pertains solely to the student.

Student data may be disclosed to authorized personnel of any state agency, or to a service provider of a state agency, educational agency, or school performing instruction, assessment, or longitudinal reporting, provided a data-sharing agreement between the educational agency and other state agency or service provider provides the following:

- purpose, scope and duration of the data-sharing agreement;
- recipient of student data use such information solely for the purposes specified in agreement;
- recipient shall comply with data access, use, and security restrictions specifically described in agreement; and
- student data shall be destroyed when no longer necessary for purposes of the data-sharing agreement or upon expiration of the agreement, whichever occurs first.

*A service provider engaged to perform a function of instruction may be allowed to retain student transcripts as required by applicable laws and rules and regulations.

Unless an adult student or parent or guardian of a minor student provides written consent to disclose personally identifiable student data, student data may only be disclosed to a governmental entity not specified above or any public or private audit and evaluation or research organization if the data is aggregate data.

“Aggregate data” means data collected or reported at the group, cohort, or institutional level and which contains no personally identifiable student data.

The district may disclose:

- Student directory information when necessary and the student’s parent or legal guardian has consented in writing;
- directory information to an enhancement vendor providing photography services, class ring services, yearbook publishing services, memorabilia services, or similar services;
- any information requiring disclosure pursuant to state statutes;
- student data pursuant to any lawful subpoena or court order directing such disclosure; and
- student data to a public or private postsecondary educational institution for purposes of application or admission of a student to such postsecondary educational institution with the student’s written consent.

As the parent or legal guardian of _____
acknowledge that I have been provided with notice of authorized student data
disclosures under the Student Data Privacy Act.

Grinnell Grade School Technology Acceptable Use Policy

I promise to follow school rules while I am using district technology.

I promise never to use any electronic device to harass, frighten or bully others at school, on school district property, or while at school sponsored activities or events.

I will not view, send or display inappropriate messages or pictures. I promise to tell an adult if I read or see something on the computer that is not appropriate.

I promise to use all technology carefully and not damage, change or tamper with the hardware, software, settings, or the network. I will not download programs, music, games, etc. from the internet, flash drive or CD.

I will only print when my teacher says I may.

I promise to use the school computer or iPad and the school's internet for schoolwork only. I will use the programs and websites that my teacher has approved.

I promise to use only my passwords, and to share them only with my teacher or parents.

I promise to follow internet safety rules. I will not use chat rooms or give personal information to anyone on the internet. If I receive an inappropriate message I will notify an adult immediately.

I promise to respect copyright laws and cite my sources.

I promise to use only my own files and folders on the server. I understand my files and electronic devices are not private. My teacher, principal or any district technology staff may see them at any time.

I understand that if I break any of my promises, I might not be able to use the computers or the network.

Student Signature _____ Date _____

USD 291 provides communication technologies to its students for educational purposes only. Some material accessible via the internet may contain items that are illegal, defamatory, offensive, or of no educational value in a school setting. USD 291 has internet filtering software.

If the guidelines set forth in the acceptable use policy are violated, the student may lose access to communication technologies. We require students and parents or guardians to read, accept and sign these rules for acceptable behavior with respect to communication technologies.

As the parent or legal guardian of the minor student signing above, I grant permission for the above student to access communication technologies such as computers, iPads and the internet. I understand that some materials on the internet may be objectionable, but I accept responsibility for providing guidance to the above student on internet usage both inside and outside of the school-setting and conveying standards for the above student to follow when selecting, sharing or exploring information and media. The school district will not be responsible for any student's mistakes or negligence, costs incurred by the student, or the accuracy or quality of information received.

Access to communication technologies is given as a privilege, not a right. Students must act in a considerate and responsible manner to keep this privilege.

- School and district administrators will make the final determination as to what constitutes unacceptable use and their decision is final.

The Grinnell School District makes no warranties of any kind, whether expressed or implied, for the service it is providing. The Grinnell School District will not be responsible for any damages a user may suffer including loss of data. The district will not be responsible for the accuracy or quality of information obtained through this Internet connection.

Students and parents will receive an Internet Acceptable Use Policy to read and sign before the student is allowed to have access on the Internet

The Internet is a privilege, not a right, and the privilege can be revoked if the Internet is not used within the guidelines that appear on the Internet Policy.

E-mail Guidelines

Students shall have no expectation of privacy when using district e-mail, computer systems, or electronic devices. E-mail messages shall be used only for approved educational purposes. Students must use appropriate language in all messages. Students are expected to use the system following guidelines approved by teachers or the administration.

Any e-mail or computer application or information stored in district computers, computer systems, or electronic devices is subject to monitoring by the staff and/or administration. The district retains the right to duplicate any information created by students in a computer system, on any individual computer, or on any electronic device. Students who violate these rules or any other classroom rules relating to computer or electronic device use are subject to disciplinary action up to and including suspension or expulsion from school.

- Unless directly instructed by a staff member of the school, no student shall use his/her e-mail to send notes, documents and/or other electronic information to a fellow student at Grinnell Schools.
- Unless directly instructed by a staff member of the school or given the permission of a staff member of the school, no student shall print a hard copy of either incoming or outgoing e-mail.
- The use of e-mail is designed to supplement and enhance the communication skills of the students. The use of e-mail is to be used only for educational intent or as a classroom activity under the immediate supervision of a classroom teacher. Students are explicitly prohibited from using e-mail for personal and/or casual use.

Note 1: Activity period use of e-mail is not permitted under any circumstance.

Note 2: It is not the intent of USD 291 to provide “personal” e-mail services for Grinnell students. “Personal” services are those obtained by an individual for his/her own personal and private use and should occur at home outside of the normal school day.

Preventing Incidences of “Sexting”

(Wording provided by KASB)

Many parents are unfamiliar with ‘sexting.’ It is generally defined as sending, sharing, viewing, receiving or possessing indecent visual depictions of oneself or another person using a cell phone. A student will be disciplined for sexting at school. USD 291 prohibits sexting at school.

Discussing sexting and its legal and social consequences with your children may prevent and reduce incidences of it at school and elsewhere. A recent survey revealed that about 20 percent of teen boys and girls have sent sexting messages. It can cause enormous emotional pain for the students involved, often with legal implications. The following talking points from the American Academy of Pediatrics may help start the discussion: Introduce the issue as soon as a child is old enough to have a cell phone. Even if the issue hasn’t directly effected your school building’s community, ask “have you heard of sexting?” “Tell me what you think it is.” Learn what your child’s understanding is and add an age appropriate explanation.

Substance Abuse Policy

USD #291 & 292 recognize that the use of mood-altering chemicals (alcohol, tobacco, and other non-prescribed controlled drugs) can lead to a significant health problem. Their usage can have negative effects on a person's behavior, learning, development, and relations with other individuals. It is the aim of this policy to eliminate the negative effects of mood-altering chemicals by doing the following:

1. Educate the students on the dangers of using mood-altering chemicals.
2. Identify students that may be having problems as a result of using mood-altering chemicals and refer them to professional help.
3. Discourage the students from using mood-altering chemicals.
4. Keep the students participating in the activities of the school.

In order to accomplish these goals, the following rule has been established.

Rule

During the school year and activity season, the student shall not consume a product containing alcohol or use any form of tobacco product. Students shall not have in their possession, use, buy, sell or give away any other controlled substance defined by law as a drug.

Possession and/or use of an illegal substance on school property will also be referred to the student handbook for consequences.

REPORT OF VIOLATIONS:

Violations may be reported in the following ways:

1. **Self admission by the student.** The student will receive the appropriate penalty.
2. **Violation witnessed by a member of the school faculty or administration, or by any law enforcement officer.** The student will receive the appropriated penalty.
3. **Violation reported by a concerned individual.** The report will be investigated by the school administration and, if confirmed, the student will receive the appropriate penalty.

PENALTIES (student is expected to attend practices during the following)

First Violation: Self Admission

1. The student will have a conference with the parents/guardian and an administrator.
2. The student will receive counseling on substance abuse from the school counselor.
3. The student will correctly complete educational materials assigned by the school administration.
4. The student will successfully complete any extra assignments given by the activity sponsor.
5. The student will be ineligible for participation in school activities for 1 week and until items 1-4 are complete.

First Violation: Other than Self Admission

1. Items 1-4 for first violation of self admission.
2. The student will be ineligible for participation in school activities for a period of 2 weeks.

Second Violation

1. Items 1-4 for first violation of self admission.
2. The student will be ineligible for participation in school activities for a period of four weeks and 10 hours of uncompensated public service has been completed. The public service must be approved by the school administration.

Third Violation

1. The student will be ineligible for participation in all school activities for the remainder of the school year.

ALL VIOLATIONS

The student may not attend any school activities (home or away) until items 1-4 of first violation self-admission are completed.

NOTES

For the purpose of this policy, one week consists of seven consecutive days that must include five school days when classes are held.

Periods of ineligibility will begin with the first activity that the student would be a participant in after the violation has been confirmed by an administrator.

Periods of ineligibility will not prohibit the student from participating in practices for an activity. Violations will accumulate throughout the school year and can carry over to a new school year.

ALL ATHLETIC AND NON-ATHLETIC ACTIVITIES ARE INCLUDED IN THIS POLICY

I understand that participation in extra-curricular activities is a privilege and not a right. Student athletes are expected to abide by certain standards largely due to their visibility to our school and our community. In addition, activity participation requires students to be physically and emotionally fit. The only way to accomplish this is to remain drug free.

I have read and understand the USD #291 & 292 Substance Abuse Policy and agree to abide by it while I am involved in Thunderhawk Activity Programs. I understand that failure to abide by the said policies will result in the appropriate and outlined penalties covered within this policy.

This form must be signed and returned to the, activities director, coach or GMS office along with the physical form prior to the athlete participating in practices or competition with outside sources.

If you think your child has suffered a concussion

Any athlete even suspected of suffering a concussion should be removed from the game or practice immediately and an urgent referral to a health care provider should be arranged (if not already onsite). No athlete may return to activity after sustaining a concussion, regardless of how mild it seems or how quickly symptoms clear, without written medical clearance from a Medical Doctor (MD) or Doctor of Osteopathic Medicine (DO). Close observation of the athlete should continue for several hours. You should also inform your child's coach if you think that your child may have a concussion. Remember it is better to miss one game than miss the whole season. **When in doubt, the athlete sits out!**

Cognitive Rest & Return to Learn

The first step in concussion recovery is relative rest for the first 24-48 hours. During this time students may participate in activities of daily living and may perform light physical activity, such as walking, provided symptoms are not more than mildly exacerbated for only a brief (less than an hour) period of time. Reduced screen time is also recommended during the first day or two after injury. Students should be encouraged to return back to a normal routine as quickly as possible, tolerating a mild exacerbation of symptoms with mental activity.

Students may need adjustments to their academic workload for a short period of time while recovering from a concussion. Trying to meet all academic requirements too soon after sustaining a concussion may more than mildly exacerbate symptoms and delay recovery. Any academic modifications should be coordinated jointly between the student's medical providers and school personnel. To minimize academic and social disruptions, in most cases it is recommended students not be completely isolated, even for a short period of time. Rather students should continue to participate in activities of daily living that do not more than mildly exacerbate concussion symptoms.

Return to Practice and Competition

The Kansas School Sports Head Injury Prevention Act (72-7119) provides that if an athlete suffers, or is suspected of having suffered, a concussion or head injury during a competition or practice, the athlete must be immediately removed from the competition or practice and cannot return to practice or competition until a Health Care Professional has evaluated the athlete and provided a written authorization to return to practice and competition. The KSHSAA recommends that an athlete not return to practice or competition the same day the athlete suffers or is suspected of suffering a concussion. The KSHSAA also recommends that an athlete's return to practice and competition should follow a graduated protocol under the supervision of the health care provider (MD or DO).

KSHSAA RECOMMENDED CONCUSSION & HEAD INJURY INFORMATION RELEASE FORM 2026-2027

A sports related concussion is a traumatic brain injury, caused by a direct blow to the head, neck, or body resulting in an impulsive force being transmitted to the brain that occurs in sports and exercise related activity. Symptoms and signs may present immediately or evolve over minutes to days. Sports related concussions commonly resolve within days but may be prolonged. **All concussions are potentially serious and may result in complications including prolonged brain damage and death if not recognized and managed properly.** If a student reports any symptoms of concussion, or if you notice the symptoms or signs of concussion yourself, seek medical attention right away.

Symptoms may include one or more of the following:

What can happen if my child keeps playing with a concussion or returns too soon?

Athletes with the signs and symptoms of concussion should be removed from play immediately. Continuing to play with the signs and symptoms of a concussion leaves the young athlete especially vulnerable to greater injury. There is an increased risk of significant damage from a concussion for a period of time after that concussion occurs, particularly if the athlete suffers another concussion before completely recovering from the first one (second impact syndrome). This can lead to prolonged recovery, or even to severe brain swelling with devastating and even fatal consequences. It is well known that adolescent or teenage athletes will often under report symptoms of injuries, and concussions are no different. As a result, education of administrators, coaches, parents and students is the key for student-athlete’s safety.
